Came foru2665u2665u2665u2665u2665u2665 not enoughu2665u2665u2665u2665u2665u2665in first 40 minutes tho.. looked good seemed to promised lots of sexy girls but. it was lackluster, story seemed lame and flat animation was alright but for 2017 should be a bit better, It's worth it if you can get it for \$2.. The games that launched 1000's of weeaboos wetdreams, just more profits off cards for the rest of us.. Let's be clear : Beach Bounce is far better. This sequel is a bit hollow and very short. But if you get it in discount or in a bundle, it's worth playing it.. Beauty Bounce is actually better than the original game, with a more fair price for such little content. Itu2019s a full fan service visual novel that doesnu2019t try to be u201cdeepu201d or anything, it was made to be like this. The same problem that happened with the previous game is still here, where Tomou2019s sprite is just a shadow, but we SEE his f*cking face and body on CGs. Thereu2019s no point on doing this if the reader already knows how he looks like. It became annoying, to be honest. BGM was okay, nothing memorable. The girls from the first game are back, and there are some new faces too. Overall, itu2019s an okay title if you enjoy lots of fan service. Even so, I recommend getting this title on a sale since I was able to finish the whole game in around one hour (I have 3 hours of gameplay registered because I was getting the cards). 5/10.. Summary: Not as good as Beach Bounce. Lacks (compared to Beach Bounce) a bit in variety,story, emotions,amount of situations, dialogue and possible endings. Endings & relationships lack variety and emotional impact or craziness too. Part of this is due to it being a sequel, but still feels "thin" compared to 1st game Pros: Can "end up with" all girls available for a group party - if you choose a certain dialogue path. Pretty much only reason I am giving a thumbs up. Official patch for Un-censoring available. Writing for sexy time/endings fairly good. Cons: See Summary. Last Words: Buy on sale like I did. Here's hoping that Bunny Bounce (series finale) regains the variety,zaniness & emotional impact of Beach Bounce. That game was crazy (some of the girls/situations) and had genuine emotional impact (girls and also your relationship with your father and grandma).. Not worth the full price considering the length nevertheless it is still decent to get in a discount. Art is nice but the music could use an improvement. I just turned it off after a while to listen to something else. This serie could be so much better if there was voice acting + in uncensored version visible male parts during intercourse because it kind of looks weird, unnatural and lacking as it is now. Also it kind of sucks that if you want to have a good ending you cant really have much fun if at all until the very end, that is especially true for this one because unless you lick the boots of that bank employee you are basically screwed though I guess it is kind of realistic as you wouldnt really be able to screw around if you wanted to save your business in real world too.. I fapped myself to 100% acheivs and all hidden galleries. I used to fap for no reason, now all those years of fapping is finally paying off. 10/10 Would fap my way to acheivments again.
