Its a good soundtack but only worth it for like 3 songs.. Totally worth it. Excellent soundtrack! And btw for those who can not find the soundtrack: It is as described in the description in your steam directory e.g.. I bought this for the new wave version of Top Secret as it's a catchy pop song that I love. The rest of the album is composed moody ambient music heard in the game. Though I enjoy the games regular music it's worth noting they're shorter then most video game soundtrack titles (each is around 3 minutes). As stated you can find this in the same place you find every single dlc soundtrack, the games steamapps/common folder.. Absolutely the best music ur ever gonna listen to!.
